

## WELCOME!

For us, the game of baseball is like life. We are convinced that our team's history on El Diamante de Fuego is incomparable and worthy of being told, which is why we created this space. Its goal is to explore the memory of "hell", filled with vibrations and sensations, to discover that the secret to beauty lies within the red jersey. The Diablos Rojos del México Museum aims above all, to inspire. We want to share with our visitors the passion we feel every day as we "live and die playing baseball".

"To experience the scarlet universe is to tour the homes of the Diablos and recognize that, after 79 years, we have achieved our greatest dream: to have our own stadium that is worthy of the most successful team in Mexican sports. In this place, we have built and continue building a community. Diablos fans wear the Mexican jersey, identify with their team, follow the statistics, adore their idols, celebrate, shout, remain silent, suffer, dance, cheer, and participate in a shared experience that unites us in the encouragement words 'Mexico, Mexico, ra, ra, ra'".

We are people of principle, driven by hard work, teamwork, discipline, and respect. The diamond unites us and restores the belief that brotherhood among men is possible. That's why we leave our hearts on the field and offer our best in every play, in every room and in every showcase of this museum, because we want to share the excitement of wearing scarlet tattoos on our skin.

We, the Diablos, are passionate about records, and winning is our mission. No one gives up here! That's why the pieces in this museum evoke great moments from our history, trigger fond memories, and invite us to reflect, feel, and relive a unique experience that will make your heart race.

**Dear Diablos fans,  
You deserve the best!**
