

THE INTIMACY OF HELL

For any fan, entering a professional team's locker room is a dream come true. The Diablos Rojos are deeply committed to this experience, which is the inspiration behind this space.

Finally, the entire Scarlet family will have the opportunity to visit the most secret place in the Diamante de Fuego. The long process of washing uniforms, cleaning shoes, and organizing lockers will no longer be a mystery. Fans will discover both common and lesser-known superstitions that are a constant part of a player's life—in short, everything they've always wanted to know. This information will be displayed on a state-of-the-art video wall.

All elements included in this room are replicas of what exists in the royal dressing room, with the added advantage that you can touch and enjoy them however you like. When you leave here, you'll understand why our facilities have impressed every visitor and are on par with the highest-ranked in world baseball—albeit with their own unique twist, “a la diablo”, that makes all the difference.

THE TIME TUNNEL

The creation of the Diablos Museum presents an extraordinary opportunity to continue nurturing the history of the scarlet team, as has been done since the mid-1990s.

Rather than being just a vast vault, our archive is designed to safeguard the most valuable pieces that have shaped the club's identity. At the same time, it will serve as a workspace where the exploits of the Pandilla Escarlata will continue to be researched and share with the same passion as Fray Nano and Tommy Morales.

Our commitment is clear: we will never stop searching for those stories that captivate our fans. In the Time Tunnel, time will stand still so that the Reds of the past and the Devils of the present can recount their battles, destined to be written in golden ink.

We look forward to collaborating with the entire King of Sports family to continue piecing together this fascinating puzzle.

MUSEO DIABLOS
