

GANAR A LA DIABLA

Each souvenir suit on display here tells a story and is accompanied by the name of one of the great heroes from that era. There will always be a place for the current uniform, which will be defended with passion and dedication.

For the Diablos Rojos del México, it is a source of pride to carry the legacy of the most successful team in the Mexican Baseball League, with 17 championships—each reflecting a story of achievement, gallantry, humility, and teamwork.

Renowned artists have come together in this space for worship and reflection to recreate, using their diverse techniques and resources, trophies that have been lost over time. In doing so, they have transformed each piece into a unique work of art, capable of capturing the most outstanding values of each achievement and aligning them in the same way that a manager selects the elements they believe can emerge victorious.

Future generations of Diablos will find within this room a powerful motivation to immortalize their names in the championships to come. Our philosophy aligns perfectly with that of Vince Lombardi, who said: “Winning is not the most important thing; it’s the only thing”.
